

# Learning from the implementation of country-wide strategies to Reduce Central Line Blood Stream Infections

## The Spanish, England & Australian experiences

11 February 2010, 09:00-16:00

**Venue: WHO, Room M205**

20 Ave Appia  
Geneva, 27, Switzerland

### Objectives:

This meeting offers a platform for exchange of lessons learned across the JHU, Spain, UK and Australian experiences.

Expected objectives of the meeting are to: (1) share lessons from the implementation process, including aspects related to (i) the strategy for professional and organizational engagement and communications; (ii) managing a nation wide implementation process, issues and barriers, and success factors; (iii) the power of data: difficulties and success factors in data collection and data sharing across professionals; (2) discuss options for evaluation of the implementation processes and for pooling cross-country results; (3) discuss the process for developing a WHO CLABSI implementation package.

**Chair: Itziar Larizgoitia**
